الهيئة العامة للاتصالات وتقنية المعلومات
COMMUNICATION & INFORMATION TECHNOLOGY REGULATORY AUTHORITY

Regulation
For the service of Private Mobile Radio
devices operating at 446 MHz

Article 1

Definitions:

A - The authorisation: The statement that allows the operation of PMR 446 devices by the user in the specified frequency bands and subject to the conditions stipulated in these regulations.

B - Device or devices (PMR 446): A device or Private Mobile Radio devices operating at 446 MHz frequency.

C - Seller: A company or an establishment that has a permit issued by the Authority for trading in telecommunication devices.

D - Special form: Registration form specified for this service by the Authority.

E - User: is a natural or legal person, company or institution (governmental or non-governmental).

F - Repeater: a station receiving and transmitting frequencies to increase the coverage area.

G – Type Approval Certificate: A certificate for the approval of technical specifications for telecommunications equipment.

Article (2)

Terms for users:

A - The user shall assume full legal responsibility for all the communications that are made by using the device.

B - In the event of loss or damage to the device, the user must notify the Communication & Information Technology Regulatory Authority and the Ministry of the Interior within a maximum period of seven (7) days from its date.

C - To use the devices responsibly, efficiently and assumes full legal responsibility in the event of any abuse in use.

D - Not to sell or dispose of the devices without informing the Communication & Information Technology Regulatory Authority.

E - The equipment shall be purchased from an authorised seller at the Communication & Information Technology Regulatory Authority.

F - The user must fill out the special form of the Communication & Information Technology Regulatory Authority at the time of purchase.

Article (3)

Seller Terms:

- A** - Has a valid permit issued by the Authority for trading in wireless devices.
- B** - Upon request to import PMR446 equipment, the seller must submit all the technical specifications and catalogs of these devices.
- C** - Obtain a Type Approval Certificate for these devices.
- D** - Keep a record of the users of these devices and the addresses of their use, purpose, and submit it annually or at any time requested by the Authority.

Article (4)

Technical specifications of devices:

- A** - Hand-held devices shall only use the built-in device antenna as a fixed, non-detachable part of the device and operate only within the band (446 MHz-446.2 MHz).
- B** - The transmitting power of the device shall not exceed 500 mW.
- C** - The use of a repeater or base station for these devices is not allowed.
- D** - The equipment must comply with the European Standard ETSI TS 102 490 Digital, ETSI TS 103 236 Analogue.

Article (5)

This Regulation and any of its terms are subject to change by the Communication & Information Technology Regulatory Authority.
